

Brief Introduction

I. Main Content

Data in this chapter show the development of foreign economic relations and trade in Beijing, including foreign trade, foreign capital utilization, and foreign economic cooperation in Beijing over the years, as well as friendly exchanges.

II. Scope of Statistical

1. Foreign Trade

Foreign trade statistics apply for: any imports and exports that lead to increase or decrease in the stock of physical resources at Beijing customs, except for those otherwise stated in regulations, and were obtained through comprehensive survey. Foreign trade data include: total volume of import and export in Beijing, and quantity of main import and export products, and so on..

2. Statistics for Port Operation

The statistical scope of port operation covers the Port of Beijing Capital International Airport, the Port of Daxing International Airport, Beijing Fengtai Cargo Transport Port, Beijing Chaoyang Transport Port, Railway Port at Beijing West Railway Station, Beijing Pinggu International Land Port, and Beijing Tianzhu Comprehensive Bonded Zone. Statistics in this chapter, which is sourced from Port Administration Office of the People's Government of Beijing Municipality, mainly include passenger throughput, cargo throughput, cargos under customs regulation and duties levied.

3. Service Trade

The statistical scope of service trade covers the enterprises involved in import export of service trade in Beijing.

4.Scope of Statistics

The statistical scope of statistics covers all entities and organizations registered with administration for industry and commerce upon approval, and using foreign capital (including investment from Hong Kong, Macao and Taiwan region) within the jurisdiction of Beijing, P.R.C, enterprises with legal person statues and independent accounting system (including enterprises invested by companies from Hong Kong, Macao and Taiwan region), including joint ventures, cooperative enterprises and foreign-invested enterprises, foreign-invested joint-stock enterprises, and cooperative development projects, and enterprises of foreign countries and Hong Kong, Macao and Taiwan region conducting operations in China as well as branch offices opened by foreign companies in China. Foreign capital utilization data include foreign direct investment, operation of foreign-invested enterprises, and were obtained through comprehensive survey.

5. Foreign Economic Cooperation

Statistics cover foreign labor service enterprises with legal person statues that are engaged in foreign contracting, labor service cooperation and design consulting with approval from departments of commerce at different levels. Comprehensive survey was used. Foreign economic cooperation statistics apply for: foreign contracting projects, labor service cooperation and design consulting.
