II. Scope of Statistics

1. The tertiary industry above designated size includes legal entities above designated size in all sectors other than international organizations. Specifically, it includes enterprises in wholesale with annual main business income of RMB 20 million and above, enterprises in retail trade with annual main business income of RMB 5 million and above, star-level hotels and non-star-level enterprises with annual main business income of RMB 2 million and above in accommodation, enterprises in restaurants with annual main business income of RMB 2 million and above, all legal entities under financial regulation and the subordinate industrial activity units as well as the legal entities in finance that are not subject to financial regulation and with annual business income of RMB 5 million and above, and other legal entities engaged in Internet finance business and with annual business income of RMB 5 million and above, all legal entities in real estate development sector.

In 2018, it included enterprises with annual business income of RMB 5 million and above or with period-end employees of 50 and above in resident services, repair and other services, and in culture, sports and entertainment, enterprises with annual business income of RMB 10 million and above or with period-end employees of 50 and above in the rest of the sectors, and legal entities following the accounting system designed for administrative institutions and non-government non-profit organizations and with total annual income of RMB 10 million and above.

In 2019, it included enterprises with annual business income of RMB 5 million and above in resident services, repair and other services, and in culture, sports and entertainment as well as in social works, enterprises with annual business income of RMB 10 million and above in the rest of the sectors, and legal entities in health care sector following the accounting system designed for institutions and non-government non-profit organizations and with total annual income of RMB 20 million and above, and legal entities with total annual income of RMB

10 million and above in the rest of the sectors.

2. Statistical scope of MICE industry covers service companies and reception companies holding the exhibitions, in details, including: legal entities and industrial activity units in accommodation sector above designated size in accommodation, venues for exhibitions and sponsors of large exhibitions (with the list provided by Beijing Municipal Bureau of Public Security), together with the above-designated-size units and travel agencies providing various professional services for exhibition activities.

III. Changes in Relevant Statistical Standards

(I) Classification of Sectors. The standards in the *Classification of National Economic Sectors* (GB/T 4754-2017) have been implemented in the classification of sectors.

(II) Classification of Three Industries. According to the *Classification of National Economic Sectors* (GB/T 4754-2002), the National Bureau of Statistics issued the *Notice of the National Bureau of Statistics on the Issuance of the 'Regulations on Three Industries Classification'* (G.T.Z. [2003] No. 14) in 2003. According to the *Classification of National Economic Sectors* (GB/T 4754-2011) promulgated by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China and the Standardization Administration of the People's Republic of China, the National Bureau of Statistics revised the *Regulations on Three Industries Classification* of 2003 version. Adjustments were mainly made in the following aspects: Firstly, the "service activities for agriculture, forestry, animal husbandry and fishing" in the category of "agriculture, forestry, animal production and hunting, fishing", the "mining support service activities" in the category of "mining and quarrying", and the "repair of fabricated metal products, machinery and equipment" in the category of "manufacturing" were adjusted to the tertiary industry. After adjustment, the primary industry fell into 4 categories; the secondary industry fell into 2 classes and 36 categories; and the tertiary industry fell into 15 classes and 3 categories. Secondly, the tertiary industry was defined as the service industry.

The classification of three industries since 2012 as mentioned in this chapter has all been subject to the classification provisions after adjustment.
