III. Changes in Relevant Statistical Standards

(I) Classification of Sectors. The standards in the *Classification of National Economic Sectors (GB/T 4754-2017)* have been implemented in the classification of sectors.

(II) Classification of Three Industries. According to the *Classification of National Economic Sectors (GB/T 4754-2002)*, the National Bureau of Statistics issued the *Notice of the National Bureau of Statistics on the Issuance of the 'Regulations on Three Industries Classification'* (G.T.Z. [2003] No. 14) in 2003. According to the *Classification of National Economic Sectors (GB/T 4754-2011)* promulgated by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China and the Standardization Administration of the People's Republic of China, the National Bureau of Statistics revised the *Regulations on Three Industries Classification* of 2003 version. Adjustments were mainly made in the following aspects: Firstly, the "service activities for agriculture, forestry, animal husbandry and fishing" in the category of "agriculture, forestry, animal production and hunting, fishing", the "mining support service activities" in the category of "mining and quarrying", and the "repair of fabricated metal products, machinery and equipment" in the category of "manufacturing" were adjusted to the tertiary industry. After adjustment, the primary industry fell into 4 categories; the secondary industry fell into 2 classes and 36 categories; and the tertiary industry fell into 15 classes and 3 categories. Secondly, the tertiary industry was defined as the service industry.

The classification of three industries since 2012 as mentioned in this chapter has all been subject to the classification provisions after adjustment.
